Patent Search

Patents 1 - 9 of 9 on **print defect binary density rotary**. (0.05 seconds)

Method and apparatus for detecting stripe defects of printed matter

US Pat. 6366358 - Filed Jun 1, 1998 - Dai Nippon Printing Co., Ltd.

BACKGROUND OF THE TECHNIQUE Generally, a web-like gravure **rotary** press continuously carrying out the printing by transferring ink adhered to a **rotary print** ...

Method and apparatus for detecting disparity of cyclic length of printed patterns

US Pat. 5060281 - Filed Feb 22, 1991 - Futec, Inc.

comprising, eg, a **rotary** encoder. The surface of the printed sheet is imaged by an 20 electronic ... thus extracting outlines of the **print** la and a **defect**. ...

Automated defect spatial signature analysis for semiconductor manufacturing process

US Pat. 5982920 - Filed Jan 8, 1997 - Lockheed Martin Energy Research Corp. Oak Ridge National Laboratory

The automated process of the present invention is achieved by at first pixelating the wafer map data to provide a **defect density** map where the intensity of ...

Print inspecting method and apparatus

US Pat. 4561103 - Filed Mar 22, 1983 - Dai Nippon Insatsu Kabushiki Kaisha

In a **rotary** press or the like, prints are being run at FIG. ... ^^ dia showing one example of a **binary**-coded with a predetermined threshold value FIG 7 is ...

Method and apparatus for detecting significant difference of sheet material

US Pat. 4975971 - Filed Jun 17, 1988 - Futec Inc.

The threshold level is set in accordance with the **density** of an image on sheet 1. ... **Defect** binarization circuit 13 converts outline pat-tern data, ...

Method of recording/reproducing data of mesh pattern, and apparatus therefor

US Pat. 5577774 - Filed Feb 10, 1994 - Casio Computer Co., Ltd.

The horizontal speed detecting circuit means can comprise is a **rotary** encoder. ... It is still another object of the present invention to provide a **binary** ...

Apparatus for reading mesh pattern image data having bars along upper and lower sides of mesh pattern and a boundary line between horizontally adjacent dark and light area of mesh pattern

US Pat. 5591957 - Filed May 26, 1995 - Casio Computer Co., Ltd.

20 The horizontal speed detecting circuit means can comprise a **rotary** encoder. ... 65 Therefore, in order to correctly reproduce **binary** data, ...

Method of recording/reproducing data of mesh pattern, and apparatus therefor

US Pat. 5042079 - Filed Aug 3, 1989 - Casio Computer Co., Ltd.

The horizontal speed detecting circuit means can comprise a **rotary**, encoder. ... Therefore, in order to correctly reproduce **binary** data, black and white ...

Method of recording/reproducing data of mesh pattern, and apparatus therefor

US Pat. 5327510 - Filed Aug 30, 1993 - Casio Computer Co., Ltd.
